The DCF organizes scientific events such as the annual National Meeting on Medicinal Chemistry (NMMC, since 1979), the Young Medicinal Chemists Symposium "Nuove Prospettive in Chimica Farmaceutica" (NPCF, since 2006) and, every third year, the Medicinal Chemistry session of the SCI national meeting. Every second year, the DCF co-organizes the well-established Joint Meeting on Medicinal Chemistry together with eight other middle European EFMC NAOs. During summer time, it also organizes the European School of Medicinal Chemistry (ESMEC), the only EFMC accredited school, and the EFMC sponsored Summer School on Pharmaceutical Analysis (SSPA). The DCF fosters and supports the participation of young researchers to meetings and other educational events by providing symposium grants to students or early stage researchers, selected on a competitive basis. The DCF administers three prizes (Giordano Giacomello medal, Piero Pratesi medal, Luigi Musajo medal), awarded to scientists who gave an outstanding contribution to the development of Medicinal Chemistry. Other DCF prizes are

awarded to young scientists to acknowledge major scientific achievements in the field of Medicinal Chemistry in both academia and industry, as well as to the best Italian Ph.D. thesis in the field.

The mission of the Section for Medicinal Chemistry of the Slovenian society is the advancement and promotion of Medicinal Chemistry in Slovenia and Europe. It will pursue its mission by organising scientific meetings, schools and working-group in order to encourage discussions and exchange of ideas in the field of Medicinal Chemistry. This section will cooperate with similar associations in the country and abroad.

## Division for Medicinal Chemistry & Chemical Biology (DMCCB) of the Swiss Chemical Society

<b>Mission</b>	The DMCCB groups Swiss scientists active in medicinal chemistry, chemical biology and related fields of research. It organizes scientific events such as DMCCB Basel Symposium, the Medicinal Chemistry and Chemical Biology session of the SCS annual meeting. Every second year, it co-organizes the Frontiers in Medicinal Chemistry congress with the German GDCh & DPhG, as well as symposia with the French SCT. The DMCCB also offers a bi-annual Medicinal Chemistry Course which takes place in Leysin, Switzerland.

The Biological and Medicinal Chemistry Sector (BMCS) is an interest group of the Royal Society of Chemistry (RSC) in the UK. The annually elected committee is primarily responsible for the organisation of Scientific Meetings and Symposia, supporting educational activities in the UK, and advising the Society on policies that directly affect the BMCS. Specifically, the BMCS aims to further the interests of all members of the RSC, both industrial and academic, involved in the pursuit and understanding of biologically active molecules. The predominant areas include pharmaceuticals, agrochemicals, flavours and fragrances. It also acts to promote public awareness of the crucial role played by chemistry in the modern industrial environment.

### Activities

The BMCS is particularly active in the organisation of Scientific Meetings and does so in collaboration with a wide variety of other groups both within and external to the RSC. In recent years the BMCS has been especially active in promoting some of the important interfacial areas in which chemists are intimately involved. We typically run several meetings each year jointly with the Society for Chemical Industry but we have also held internationally attended meetings with groups the EFMC, the Swedish Pharmaceutical Society, the Swiss Chemical Society and the Societe de Chimie Therapeutique since 2013. Overall we organise up to ten scientific meetings each year. The BMCS also supports educational activities at both primary and secondary school level, such as the running of lectures and day schools, and the provision of equipment.

The BMCS administers two biennial awards, the Malcolm Campbell Award and the Capps-Green-Zomaya Award, which acknowledge major scientific achievements in both academia and industry that have been carried out within the UK. In addition the BMCS publicises medicinal chemistry at universities by funding a 'BMCS Lectureship' and also promote and also provide travel bursaries for UK-based postgraduate students undertaking research in medicinal chemistry to attend international symposia.
