

EFMC-ASMC

International Symposium
on Advances in Synthetic
and Medicinal Chemistry

Zagreb, Croatia

September 3-7, 2023

PROGRAMME BOOK

Organised by

Zagreb, Croatia
September 3-7, 2023
www.efmc-asmc.org

EFMC is an independent association founded in 1969, representing 30 societies from 26 European countries, and more than **9000 scientists**. Its main objective is to **advance the science of medicinal chemistry and chemical biology**.

Upcoming Events

EFMC-ISCB 2023
EFMC International Symposium on Chemical Biology
Basel, Switzerland | November 16-18, 2023

EFMC-ACSMEDI Medicinal Chemistry Frontiers 2024
Joint Symposium on Medicinal Chemistry
Utrecht, The Netherlands | April 8-11, 2024

18th EFMC Short Course on Medicinal Chemistry
Oegstgeest, The Netherlands | April 21-24, 2024

EFMC-ISMC 2024
XXVIII EFMC International Symposium on Medicinal Chemistry
Rome, Italy | September 1-5, 2024

Awards

- The Nauta Pharmacochemistry Award for Medicinal Chemistry and Chemical Biology
 - The UCB-Ehrlich Award for Excellence in Medicinal Chemistry
 - Prous Institute - Overton and Meyer Award for New Technologies in Drug Discovery
 - The EFMC-WuXi AppTec Award for Excellence in Chemical Biology
- Visit www.efmc.info/awards for more information

Prizes

- EFMC Prizes for Young Medicinal Chemists in Industry & Academia
 - EFMC-YSN PhD Prize
 - Symeres PhD Prize for Excellence in Chemistry in Life Sciences Research
- Visit www.efmc.info/prizes for more information

EFMC-YSN

The Young Scientists Network

Building a strong network at an early stage in your career is crucial!
The aim of the EFMC-YSN is to **inspire, connect** and **provide opportunities** to medicinal chemists and chemical biologists in their Early Career.

EFMC & CROATIAN CHEMICAL SOCIETY

EFMC – EUROPEAN FEDERATION FOR MEDICINAL CHEMISTRY AND CHEMICAL BIOLOGY

The European Federation for Medicinal chemistry and Chemical biology (EFMC) is an independent association founded in December 1969 that represents 30 scientific organisations from 26 European countries, and more than 9000 scientists. Its objective is to advance the science of medicinal chemistry & chemical biology by promoting cooperation and encouraging strong links between the national adhering organisations in order to deepen contacts and exchanges between medicinal chemists & chemical biologists in Europe and around the World.

EFMC fulfils this objective by organising symposia and short courses, by sponsoring meetings and medicinal chemistry schools, by publishing on relevant topics and by conferring awards and prizes.

Its most important event is the long-established, biennial International Symposium on Medicinal Chemistry (EFMC-ISMC). These symposia, with an average attendance of 1,200 delegates, are highly international with a broad range of speakers and attendees from the pharmaceutical industry and academia. Next to the ISMC, EFMC is involved in the organisation of the Frontiers in Medicinal Chemistry (FMC), the international symposium on Advances in Synthetic and Medicinal Chemistry (EFMC-ASMC), as well as the International Symposium on Chemical Biology (EFMC-ISCB) jointly organised with the Swiss Chemical Society. EFMC also organises intensive short courses on specific topics in medicinal chemistry. The Young Medicinal Chemists Symposium (EFMC-YSMC) has become an annual concentration of young talents, and it will run as a companion to EFMC-ASMC 2023 in Zagreb.

An important aspect of EFMC activities is the sponsorship of national scientific meetings and Medicinal Chemistry Schools. EFMC also awards travel grants for younger scientists to attend EFMC symposia and schools.

Furthermore, the European Federation for Medicinal chemistry and Chemical biology is proud to have entered a partnership agreement with ChemMedChem and ChemBioChem, to become official EFMC journals. The electronic newsletter MedChemBioWatch, as well as the yearbook "Medicinal Chemistry and Chemical Biology in Europe", help to develop contacts between medicinal chemists and chemical biologists around the world.

EFMC also acknowledges the excellence of medicinal chemists' work, by conferring four major awards: the Nauta Pharmacochemistry Award, the UCB-Ehrlich Award for Excellence in Medicinal Chemistry, the Prous Institute-Overton and Meyer Award for New Technologies in Drug Discovery, which are given every two years at the occasion of EFMC-ISMC, for outstanding achievements in the field of Medicinal Chemistry. In addition, in 2023, the EFMC has announced the creation of the EFMC-WuXi AppTec Award for Excellence in Chemical Biology. This award will be conferred biennially at the occasion of EFMC-ISCB. From 2010 on, EFMC established two prizes to acknowledge the scientific accomplishments of young medicinal chemists or chemical biologists, both in industry and academia.

The EFMC has very strong links with the Medicinal Chemistry Division of the American Chemical Society (ACS), the European Federation for Pharmaceutical Sciences (EUFEPS), the European Association for Chemical and Molecular Sciences (EuCheMS), the Asian Federation of Medicinal Chemistry (AFMC) and the Chinese Pharmaceutical Association (CPA), which gives the EFMC a broad international footprint.

HKD - MEDICINAL AND PHARMACEUTICAL CHEMISTRY SECTION OF THE CROATIAN CHEMICAL SOCIETY

The Medicinal and Pharmaceutical Chemistry Section of the Croatian Chemical Society was founded in 2009 with the main goal of promoting scientific, professional and educational activities in the field of medicinal and pharmaceutical chemistry. It organizes symposia, meetings and workshops to increase visibility and networking in the field and to promote exchange on the latest discoveries in academia and industry. It also places special emphasis on supporting young people through their education, encouragement for scientific and professional development, and providing financial support.

The Medicinal and Pharmaceutical Chemistry Section of the Croatian Chemical Society is a member of the European Federation of Medicinal Chemistry and Chemical Biology (EFMC).

WELCOME BY SYMPOSIUM CHAIRS

Dear Delegates,

It is with immense pleasure and anticipation that we extend a warm and distinguished welcome to the IX EFMC International Symposium on Advances in Synthetic and Medicinal Chemistry (EFMC-ASMC 2023), taking place in the captivating city of Zagreb, Croatia, in the heart of Europe. This high-impact gathering is a result of the joint efforts between the European Federation for Medicinal chemistry and Chemical biology (EFMC) and the Medicinal & Pharmaceutical Chemistry Section of the Croatian Chemical Society, uniting scientists from industry, academia, and start-up companies from across the globe.

Our shared mission at EFMC-ASMC 2023 is to honor innovation in the realms of synthetic methodologies, total synthesis, chemical biology, process and medicinal chemistry, and the pioneering domains of automation and AI in synthesis and drug discovery. The symposium will offer a diverse array of sessions carefully curated to foster knowledge exchange and collaboration, featuring an impressive lineup that includes an opening lecture by Prof. Jeffrey Bode from ETH Zurich, Switzerland, 26 invited lectures, and 10 oral communications handpicked from the hundreds of submitted abstracts. The programme will also embrace an interactive poster session and commercial exhibition, adding depth and diversity to the intellectual discourse.

As Chairs of EFMC-ASMC 2023, it is an honour for us to lead this inspiring event. We believe that the inclusive blend of industry and academia in the programme will pave the way for transformative insights and induce many new collaborations among attendees.

Furthermore, we express our sincere gratitude to all the symposium sponsors, esteemed speakers, and contributors, whose support has paved the way for this gathering to become an exceptional platform for scientific exploration.

In this spirit of academic camaraderie, we are looking forward to your active participation & collaborative contributions. Together, let us chart a course towards breakthrough innovations that will shape the future of synthetic and medicinal chemistry.

Once again, welcome to EFMC-ASMC 2023 in Zagreb, where knowledge converges and possibilities flourish.

Warm regards,

Ingo HARTUNG

Novartis Institutes for
BioMedical Research
Global Discovery Chemistry

Changing the practice of medicine

At Novartis, we harness the innovation power of chemical biology and medicinal chemistry to address some of society's most challenging healthcare issues. Our researchers work to push the boundaries of science, broaden our understanding of diseases and develop novel products in areas of great unmet medical need. We are passionate about discovering new ways to extend and improve patients' lives.

WELCOME BY THE EFMC & CROATIAN CHEMICAL SOCIETY

Dear Participants,

As members of the International Organising Committee, it is our honour and special pleasure to welcome you to the EFMC International Symposium on Advances in Synthetic and Medicinal Chemistry, EFMC-ASMC 2023 in Zagreb.

EFMC-ASMC 2023 is jointly organised by the European Federation for Medicinal chemistry and Chemical biology (EFMC) and the Medicinal & Pharmaceutical Chemistry Section of the Croatian Chemical Society. It is the 9th edition in a series of events which started in 2004, to facilitate scientific communication and networking at the intersection of medicinal and synthetic organic chemistry.

EFMC-ASMC 2023 will feature 27 internationally renowned speakers from academia, pharmaceutical and biotech companies, as well as 11 oral communications and close to 300 poster presentations. It will be a scientifically rich and diverse event, promoting exchange and cooperation between scientists from all over the world.

We would like to express our gratitude to the Symposium Chairmen, Karl Gademann and Ingo Hartung, to the members of the Scientific Advisory Board and to the team at LD Organisation for their support and commitment to organise the symposium.

Sincere thanks go to our Corporate Sponsors, Speakers, Poster Presenters, Exhibitors and all Participants for their support and presence.

We wish all of you four days of exciting science, great discussions and enriching cultural experiences in Zagreb.

SCIENTIFIC PROGRAMME

Sunday September 3, 2023

15:30 Registration

17:10 Opening Ceremony

Dr Vesna GABELICA MARKOVIC
Croatian Chemical Society, Medicinal & Pharmaceutical Chemistry Section, Zagreb, Croatia
Prof. Karl GADEMANN
University of Zürich, Zürich, Switzerland
Dr Ingo HARTUNG
Merck Healthcare, Darmstadt, Germany
Prof. Rui MOREIRA
University of Lisbon, Lisbon, Portugal

17:30 Opening Lecture

Synthetic and Medicinal Chemistry for Biologics (IL01)

Prof. Jeffrey BODE
ETH ZURICH, Zürich, Switzerland

18:30 Welcome Reception

Overflow of the
presentations will be
available in Hall Earth.

In case you don't find a
comfortable seat in Hall
Water, please don't hesitate
to go next door!

Monday September 4, 2023

08:00 Registration

SESSION 1

Session Chair: Dr Luc VAN HIJFTE

Symeres, Nijmegen, The Netherlands

08:30 Flow-enabled Synthesis of Fluorinated and Fluoroalkylated Moieties (IL02)

Prof. Timothy NOËL

University of Amsterdam, Amsterdam, The Netherlands

09:15 MicroCycle: A Machine Learning Driven, Automated and Integrated Platform for Drug Discovery (IL03)

Dr Cara BROCKLEHURST

Novartis, Basel, Switzerland

10:00 Divergent Synthesis as an Emergent Tool for Drug Discovery (OC01)

Prof. Alexandros ZOGRAFOS

Aristotle University of Thessaloniki, THESSALONIKI, Greece

10:15 Coffee-break and Exhibition

10:45 Synthesis of Fluorinated Molecules Using Modern Synthetic Tools (IL04)

Dr Tatiana BESSET

INSA Rouen, Rouen, France

11:30 Chemical Probes and their Relevance for Drug Discovery Programs – Examples from the Endocannabinoid System (IL05)

Dr Uwe GRETHER

F. Hoffmann-La Roche, Basel, Switzerland

12:15 Isolation and Biological Activities of Natural Products and Analogues from the Adriatic Coral *Eunicella Cavolini* (OC02)

Prof. Dean MARKOVIĆ

University of Rijeka, Rijeka, Croatia

12:30 Lunch and Exhibition

13:15 Poster Session 1 (P001-P100)

SESSION 2

Session Chair: Dr Sanja KOSTRUN

Selvita, Zagreb, Croatia

14:30 New Catalytic Approaches for Simplifying Complex Amine Synthesis (IL06)

Prof. Darren J. DIXON

University of Oxford, Oxford, United Kingdom

15:15 Challenges and Opportunities in CNS Drug Discovery (IL07)

Dr Frauke POHLKI

Abbvie, Ludwigshafen, Germany

16:00 Design and Optimization of High Performance KSPi ADCs with Increased Tumor Selectivity: Enhancing the Therapeutic Window by Legumain-Mediated ADC Activation (OC03)

Dr Anne-Sophie REBSTOCK

Vincerx Pharma, Monheim am Rhein, Germany

16:15 Coffee-break and Exhibition

16:45 Enabling Technologies to Drive the MSD Portfolio (IL08)

Dr Rebecca RUCK

Merck, Sharp & Dohme, Rahway, United States

17:30 Novel Methods and Strategies for Rapid and Controlled Synthesis of Complex Antibiotics (IL09)

Prof. David SARLAH

University of Illinois, Urbana, United States

18:15 Closing of the day

Tuesday September 5, 2023

SESSION 3

Session Chair: Prof. Maria Laura BOLOGNESI

University of Bologna, Bologna, Italy

08:30 Chemistry Europe Speaker

The Beautiful Simplicity of Rearrangements – Towards Ideal Reactions? (IL10)

Prof. Nuno MAULIDE

University of Vienna, Vienna, Austria

09:15 Structure Based Identification of Novel Albumin Binders for Half-Life Extensions of Proteins and Peptides (IL11)

Dr Maria MÉNDEZ PÉREZ

Sanofi, Frankfurt, Germany

10:00 High-Throughput Protac Synthesis and Direct to Biology Assaying for Rapidly Evaluating Targeted Protein Degradation (OC04)

Dr Afjal MIAH

GlaxoSmithKline, Stevenage, United Kingdom

10:15 Coffee-break and Exhibition

10:45 Phenotypic Screen to NLRP3 lead (IL12)

Dr Daniel OEHLRICH

Janssen Pharmaceutica, Beerse, Belgium

11:30 Precision Molecule Editing (a Game of Bio and Chemo-catalysis) (IL13)

Prof. Rebecca GOSS

University of St. Andrews, St. Andrews, United Kingdom

12:15 Development of Selective mTOR Inhibitors for the Treatment of Cancer and Neurological Disorders (OC05)

Dr Chiara BORSARI

University of Milan, Milan, Italy

12:30 Lunch and Exhibition

13:15 Poster Session 2 (P101-P200)

SESSION 4

Session Chair: Dr Ingo HARTUNG

Merck Healthcare, Darmstadt, Germany

14:30 Next Generation Design-Make-Test-Analysis-Cycles (IL14)

Dr Clara CHRIST

Bayer, Berlin, Germany

15:15 Making and Breaking of C-S Bonds Using Metal Catalysis (IL15)

Dr Ivana FLEISCHER

University of Tübingen, Tübingen, Germany

16:00 Discovery of Imidazo[1,2-a]Pyridine Carboxamide BAY 1165747, a Long-Acting Soluble Guanylate Cyclase Stimulator for Resistant Hypertension (OC06)

Dr Alexandros VAKALOPOULOS

Bayer, Wuppertal, Germany

16:15 Coffee-break and Exhibition

16:45 From BRD4 to KRAS: 12 Years of Oncology Small Molecules (IL16)

Dr Darryl McCONNELL

Boehringer Ingelheim Regional Center, Vienna, Austria

17:30 Synthesis of Glycosylated Natural Products or Analogues of Biological Interest (IL17)

Dr Stéphanie NORSIKIAN

Institut de Chimie des Substances Naturelles, Gif-sur-Yvette, France

18:15 Closing of the day

Wednesday September 6, 2023

SESSION 5

Session Chair: Dr Werngard CZECHTIZKY

AstraZeneca, Mölndal, Sweden

08:30 Machine Learning to Accelerate Design-Make-Test Cycles (IL18)

Dr Marwin SEGLER

Microsoft Research, Cambridge, United Kingdom

09:15 Covalent Chemical Biology with Natural Products and Novel Synthetic Warheads (IL19)

Prof. Thomas POULSEN

Aarhus University, Aarhus, Denmark

10:00 Direct Access to Unnatural Drug-Like Molecules by Photocatalytic Late-Stage Functionalization (OC07)

Prof. Olga GARCIA MANCHENO

University of Münster, Münster, Germany

10:15 Coffee-break and Exhibition

10:45 Multicomponent Alkene Cross-Coupling by Base Metal Catalysis (IL20)

Dr Ming Joo KOH

National University of Singapore, Singapore, Singapore

11:30 Novel, Reversible DCAF1 Ligands Expand the TPD-Toolbox (IL21)

Dr Martin SCHRÖDER & Dr Anna VULPETTI

Novartis, Basel, Switzerland

12:15 Cocktails for 19F NMR Fragment Screening: From Theory to Applications Using Enamine's Stock Chemical Space (OC08)

Prof. Dmytro VOLOCHNYUK

Enamine, Kyiv, Ukraine

12:30 Lunch and Exhibition

13:15 Poster Session 3 (P201-P290)

SESSION 6

Session Chair: Prof. Rui MOREIRA

University of Lisbon, Lisbon, Portugal

14:30 Disrupting the YAP-TEAD Protein-Protein Interaction with Small Molecules - Discovery of Drug Candidate NVP-IG933 (IL22)

Dr Nicolas SOLDERMANN

Novartis, Basel, Switzerland

15:15 EFMC Prizes Session - Ceremony & Lectures

15:20 EFMC Prize for a Young Medicinal Chemist or Chemical Biologist in Academia (PR01)

Targeted Protein Degradation via Molecular Glues

Dr Georg WINTER

Research Center for Molecular Medicine - Austrian Academy of Sciences, Vienna, Austria

15:35 EFMC Prize for a Young Medicinal Chemist or Chemical Biologist in Industry (PR02)

Discovery and Characterization of Potent, Efficacious and Orally Available Antimalarial Plasmeprin X Inhibitors

Dr Teresa DE HARO GARCIA

UCB, Braine l'Alleud, Belgium

15:50 EFMC Prize Winner EFMC-YMCS 2022

Epitope Identification Using In-Silico Approaches, a Case Study: Nanobodies Binding to mGlu5 Receptor (OC09)

Ms Floriane ESHAK

University Paris Cité, Paris, France

16:05 Coffee-break and Exhibition

16:35 First time disclosure - Title to be announced (OC10)

Dr Birgit WILDING

Boehringer Ingelheim, Vienna, Austria

17:00 Will Chemputers Dream of Electric Drugs (IL23)

Prof. Leroy CRONIN

University of Glasgow, Glasgow, United Kingdom

17:45 Closing of the day

20:00 Symposium Banquet sponsored by Selvita

Thursday September 7, 2023

SESSION 7

Session Chair: Prof. Karl GADEMANN

University of Zürich, Zürich, Switzerland

08:30 Taking Molecular Glue Degradors to New Heights (IL24)

Dr Etienne DONCKELE

MONTE ROSA THERAPEUTICS, Basel, Switzerland

09:15 Making Difficult-to-Make Molecules: Photochemistry as an Enabling Tool (IL25)

Dr Susannah COOTE

University of Bath, Bath, United Kingdom

10:00 RSC Medicinal Chemistry Lectureship

Time to Shine for Constrained Peptides in Medicinal Chemistry (OC11)

Prof. Christoph NITSCHKE

Australian National University, Canberra, Australia

10:15 Coffee-break and Exhibition

10:45 Novel Modes of Enzyme Inhibition (IL26)

Dr Anders JOHANSSON

AstraZeneca, Mölndal, Sweden

11:30 Natural Product Synthesis through the Lens of Informatics (IL27)

Prof. Ryan SHENVI

Scripps Research, La Jolla, United States

12:15 Closing Remarks & Prize Ceremony

12:30 End of the symposium

REGISTRATION DESK: OPENING HOURS

The Registration Desk will be open during the following hours:

- **Sunday, September 3** 15:30 – 19:00
- **Monday, September 4** 08:00 – 17:00
- **Tuesday, September 5** 08:00 – 17:00
- **Wednesday, September 6** 08:00 – 17:00
- **Thursday, September 7** 08:00 – 11:00

THE PARTICIPANT REGISTRATION FEE INCLUDES:

- Admission to all scientific sessions and to the exhibition programme
- Electronic book of abstracts, symposium bag and certificate of attendance
- Lunches and refreshment breaks as per the symposium schedule
- Welcome Reception on Sunday September 3, 2023
- The possibility to book additional activities included in the Social Programme

THE ACCOMPANYING PERSON FEE INCLUDES:

- Welcome Reception on Sunday September 3, 2023
- Lunches and refreshment breaks as per the symposium schedule
- The possibility to book additional activities included in the Social Programme
- The possibility to participate in the additional optional cultural and sightseeing programme. Reservations for this programme will be available on site only.

NAME BADGE

All participants are requested to wear their name badges during the symposium and the social events. The name of the participant, affiliation, city and country of origin will appear on the badge.

POSTER SESSIONS

Poster presentations will take place in three separate sessions:

- **Poster Session 1 (P001-P100):**
Monday, September 4 from 13:15 to 14:30
- **Poster Session 2 (P101-P200):**
Tuesday, September 5 from 13:15 to 14:30
- **Poster Session 3 (P201-P290):**
Wednesday, September 6 from 13:15 to 14:30

Poster presenters are responsible for setting up and removing the posters. Posters should be mounted on the day of the assigned session, during the morning coffee break and removed

at the end of that day. Mounting stickers will be provided in your welcome envelope.

INTERNET CONNECTION

WiFi service is available for all participants during the symposium.

- **Network name:** EFMC-ASMC
- No password is required to access

COFFEE BREAKS & LUNCHES

Coffee breaks and buffet lunches are included in the registration package and will be served in the exhibition area at the time mentioned in the programme schedule.

CERTIFICATE OF ATTENDANCE & POSTER PRESENTATION

A certificate of attendance and poster presentation (if applicable) will be provided to all participants in electronic format, after the conference. Participants requiring an original stamp and signature should present themselves at the Registration desk.

LIABILITY & INSURANCE

Neither the Organisers nor LD Organisation will assume any responsibility whatsoever for damage and injury to persons or property during the Symposium. Participants are recommended to arrange for their personal travel and health insurance.

CODE OF CONDUCT

EFMC-ASMC 2023 should be a safe experience for all attendees. The organisers prohibit harassment and other inappropriate conduct such as verbal comments related to gender, gender identity or expression, sexual orientation, disability, physical appearance, body size, race, age, or religion; deliberate intimidation; sustained disruption of talks or other events; unsolicited physical contact; advocating for, or encouraging any of the aforementioned behaviours. Anyone engaging in such behaviour may be asked to leave the conference and may be refused entry to future editions at the sole discretion of the organisers.

EMERGENCIES

If during the symposium, you have an urgent question, you can reach us via our cell phone:

+ 32 476 26 40 38

SOCIAL PROGRAMME

The following networking moments will take place during EFMC-ASMC 2023.

WELCOME RECEPTION

Sunday, September 3 at 18:30

In the Exhibition area. Participation in the Welcome Reception is free of charge and open to all participants.

SYMPOSIUM BANQUET - SPONSORED BY SELVITA

Wednesday, September 6 at 20:00

The banquet was subject to registration. If you booked the banquet, a ticket and all details are included in your welcome package. If you still would like to register, please check for availabilities at the Registration Desk on Sunday, September 3.

EXCURSIONS

Several excursions are organised by our local partner, PCO Conventa grupa. If you booked an excursion, a ticket and all details are included in your welcome package. If you would still want to register, please check for availabilities at the Registration Desk on Sunday, September 3.

Thursday, September 7 - Half day tours - afternoon

- Nikola Tesla walking tour & standard city tour - 35,00€.
- City of Samobor and St. Barbara Mines - 99,00€.

Friday, September 8 - Full day tours

- Plitvice Lakes National Park - 125,00€.

COLLABORATIVE DRUG DISCOVERY #5

CDD Vault - Focus on science, not data management

Collaborative Drug Discovery (CDD) provides an intuitive software suite extensively used by creative biologists and chemists working in academic, biotechnology and pharmaceutical settings. Their flagship product, CDD Vault, enables researchers to intuitively organize and analyze both biological and chemical data, and to collaborate with partners through a straightforward web interface. Learn more at www.collaborativedrug.com.

Address: 1633 Bayshore Hwy, Suite 342, Burlingame, CA 94010, United States

Contact: info@collaborativedrug.com

Website: www.collaborativedrug.com

CRESSET #11

Cresset: Advancing in silico biomolecular discovery

Research chemists use Cresset solutions to discover, design, optimize, synthesize and track the best small molecules. Patented CADD Software, collaborative Torx® DMTA design-make-test-analyze platform, and expert Discovery CRO scientists, enable chemists to enhance efficiency and win the race to success in industries globally including: pharmaceuticals, agrochemicals, flavors and fragrances.

Address: New Cambridge House, Bassingbourn Road, Litlington, Cambridgeshire, SG8 OSS, United Kingdom

Contact: enquiries@cresset-group.com

Website: www.cresset-group.com

FLUOROCHEM LIMITED #14

Supporting you in research every step of the way...

Fluorochem are now expanding...

- Catalogue of over half a million compounds now available covering Building Blocks, Catalysts, Ligands, Lab Essentials and more.
- Supporting many sectors of the chemical industry.
- EU Warehouse, replicating the stock levels of the UK headquarters.
- Strategic focus on Medicinal Chemistry and Pharma projects, offering FTE, custom synthesis and scale up with GMP facilities available.
- Supporting their customers in research, every step of the way.

Address: Unit 14, Graphite way, Hadfield, SK13 1QH, United Kingdom

Contact: eu.sales@fluorochem.eu

Website: www.fluorochem.co.uk

GALCHIMIA #8

Passion for chemistry

GalChimia is a CRO specialized in Organic Chemistry that offers services in Discovery, Process, and Analytical Chemistry for the pharma, biotech, and agrochemical industries. The passion for chemistry of our team is reflected in their ability to provide creative solutions to the most challenging syntheses, transforming the company into a European leader in Chemical Synthesis.

Address: Parque Empresarial de Touro, Parcelas 26-27, 15822 Fonte Díaz, A Coruña, Spain

Contact: hello@galchimia.com

Website: www.galchimia.com

IKTOS #12

AI for new drug design

Iktos is an innovative company specializing in the development of artificial intelligence (AI) solutions applied to chemical research, more specifically medicinal chemistry and new drug design. The use of Iktos technology platform enables major productivity gains in upstream pharmaceutical R&D.

Address: 65 rue de Prony, 75017 Paris, France

Contact: contact@iktos.com

Website: iktos.ai

Exhibitor Profiles

JRF GLOBAL #10

A GLP contract research organization (CRO) supporting Chemistry, discovery, and preclinical drug development.

JRF Global offers comprehensive nonclinical GLP research services for worldwide regulatory submissions. We offer fast, transparent, cost-effective and hassle-free services in Toxicology, Ecotoxicology, Chemistry, Environmental Fate and Metabolism, and other regulatory testing requirements. With locations in India, USA, and Japan, we are the partner of choice of over 600 companies for generating safety data.

Address: JRF International Ltd., 6th Floor 2 London Wall Place, Barbican EC2Y 5AU, London, United Kingdom

Contact: nilendra.singh@jrfonline.com; bd@jrfonline.com

Website: www.jrfglobal.com

JUBILANT BIOSYS LIMITED #20

Your global leading partner in science for end to end CRDMO services

Jubilant Biosys is a Contract Research, Development and Manufacturing Organization in India with R&D centres in India and business offices in Asia & North America. We provide comprehensive Integrated drug discovery services and contract research services - from Target to hit identification to Lead Optimization to candidate selection and with flexible business models (FFS, FTE and risk shared) having scientific focus in oncology, metabolic disorders, central nervous system (CNS) diseases, pain and inflammation.

Address: #96, Industrial Suburb, 2nd Stage, Industrial Area
Yeshwanthpur, Karnataka, Bangalore-560022, India

Contact: Varun.b@jubilantbiosys.com

Website: www.jubilantbiosys.com

NOVALIX #13

We enable the discovery of new medicines

Integrated drug discovery CRO operating from target identification to delivery of preclinical candidates. NovAliX relies on an award-winning team of medicinal chemists and pharmacologists, and a variety of screening and characterization technologies such as DNA-encoded library platform and biophysical techniques, including cryo-EM. Therapeutic areas span oncology, inflammation, fibrosis, infectious and renal diseases.

Address: 16, rue d'Ankara, 67000 Strasbourg, France

Contact: info@novalix.com

Website: www.novalix.com

OPTIBRIUM #7

Innovative software that guides successful drug discovery

Optibrium develops innovative software for small molecule design, optimisation and data analysis. Their lead product StarDrop™ is a comprehensive suite of software that enables a seamless flow from the latest data to predictive modelling and decision-making regarding synthesis and research. Cerella™, Optibrium's proven AI, guides successful drug discovery, generating valuable insights from data. Founded in 2009, Optibrium works with 180+ customers including leading biopharma and academic groups.

Address: F10-13 Blenheim House, Cambridge Innovation Park, Denny End Road, Cambridge, CB25 9GL, United Kingdom

Contact: info@optibrium.com

Website: www.optibrium.com

**OXELTIS #15****Your partner in Medicinal Chemistry and Life Science R&D.**

OXELTIS delivers integrated solutions for managing and executing organic and medicinal chemistry projects to pharmaceutical companies, worldwide. We run hit to lead optimization programs. We have 12+ years of experience with nucleos(t)ides, macrocycles, mono & poly/oligosaccharides and protein degraders applied to drug discovery projects, mainly in oncology, antivirals and antibiotics.

Address: 1682 rue de la Valsière, BP 7247, 34086 Montpellier Cedex 4, France

Contact: szabo.remi@oxeltis.com

Website: www.oxeltis.com

**SPIROCHEM AG #6****Elite Discovery Chemistry... and beyond**

SpiroChem is an Elite Contract Research Organization (CRO) operating in Basel, Switzerland. SpiroChem is covering the entire discovery chemistry value chain, from proprietary screening libraries (diverse high-sp3 FBL, scaffolds for DELt), then design (FBDD, SBDD, CADD) and synthesis of bioactive molecules (Medicinal Chemistry, Medicinal Chemistry-Enabling platforms), all the way to early CMC (Route-Scouting).

Address: Rosental area, WRO-1047-3, Mattenstrasse 22, 4058 Basel, Switzerland

Contact: Laurence.jung@spirochem.com

Website: www.spirochem.com

**SYMERES B.V. #4****Symeres, Making Molecules Matter**

Symeres is the leading mid-sized transatlantic Contract Research Organization for your drug-discovery and development challenges. With over 600 highly educated scientists in Europe and the USA, we offer best-in-class solutions for drug discovery and development, from small to medium-sized molecule hits. We are large enough to matter, small enough to care. Our services span across early stage hit finding to the delivery of your early clinical drug substance API. Making Molecules Matter. Together.

Address: Kerkenbos, 1013 Nijmegen, The Netherlands

Contact: Norimasa.morita@symeres.com

Website: symeres.com

**SYNPLE CHEM AG #17****Bridging the gap: Automated synthesis and tractable space**

Trained on Synple reaction data, Synple's Selector tool, can identify compatible building blocks, from commercial and proprietary sources, and enumerate vast regions of tractable chemical space that can be readily accessed using Synple's synthesis automation tools. Synple's automated cartridge-based synthesis enabling technology works analogously to capsule coffee makers - simply add the starting material and a commercially available, single-use, disposable reagent cartridge, then with the touch of a button, the purified product is generated and isolated!

Address: Kempthpark 18, 8310 Kempththal, Switzerland

Contact: info@synplechem.com

Website: www.synplechem.com

Exhibitor Profiles

TELEDYNE ISCO #16

Multiple solutions for medicinal chemistry

Teledyne ISCO solutions for medicinal chemistry, drug discovery and pharmaceutical applications include automated flash, preparative and supercritical fluid chromatography systems with predictive method development, mass spectrometer-directed detection, high-throughput milligram- to kilogram-scale purification, and high-performance columns geared to reliable and repeatable purification of small molecules, peptides and other biopolymers.

Address: 4700 Superior Street, Lincoln NE 68504, United States

Contact: Sharon.Fischer@teledyne.com

Website: www.teledyneisco.com/chromatography

WUXI APPTEC #21

Global Platform One Vision

As a global company with operations across Asia, Europe, and North America, WuXi AppTec provides a broad portfolio of R&D and manufacturing services that enable the pharmaceutical and healthcare industry around the world to advance discoveries and deliver groundbreaking treatments to patients. Through its unique business models, WuXi AppTec's integrated, end-to-end services include chemistry drug CRDMO (Contract Research, Development and Manufacturing Organization), biology discovery, preclinical testing and clinical research services, and cell and gene therapies CTDMO (Contract Testing, Development and Manufacturing Organization), helping customers improve the productivity of advancing healthcare products through cost-effective and efficient solutions. WuXi AppTec received AA ESG rating from MSCI in 2022 and its open-access platform is enabling more than 6,000 customers from over 30 countries to improve the health of those in need – and to realize the vision that “every drug can be made and every disease can be treated.”

Address: 5 New Street Square, London EC4 3TW, United Kingdom

Contact: Kathryn.mcaleese@wuxiapptec.com

Website: www.wuxiapptec.com

Selvita: Integrated Drug Discovery partner of choice

Having experience in both **pharma and biotech R&D**, we are well aware of what it means to discover a hit and transform it into a drug. You can best benefit from this "insider" experience through our integrated drug discovery services.

TARGET VALIDATION

Target validation with genetic and pharmacological approach

Biomarker expression and post-translational modifications

Cellular processes

HIT IDENTIFICATION

Assay development and screening

HTS/vHTS/HCS

Prioprietary macrocycle library

Fragment-based drug design

Structure- and ligand-based drug design

Biophysical methods

HIT TO LEAD AND LEAD OPTIMIZATION

Medicinal and synthetic chemistry

CADD

In vitro pharmacology

ADME/DMPK

Protein production and X-ray crystallography

Early toxicology

In vivo pharmacology

Translational research

PRECLINICAL/CLINICAL CANDIDATE

Non-GLP tox studies

Solid state

GLP bioanalysis

Ex vivo analysis for biomarker research

Batch release for clinical trials (GMP)

Foundations of our excellence:

- ✓ Extensive experience in drug discovery from target validation to preclinical development
- ✓ Dedicated IDD Department overseeing all IDD projects and comprising of experienced scientists with a > 20-year track record from leading biotech and pharma companies
- ✓ Therapeutic area expertise, primarily in inflammation, infection, oncology, and fibrosis
- ✓ Increasing use of AI algorithms across all business areas with particular emphasis on chemistry and biology
- ✓ Medicinal chemistry and strong skills in organic synthesis
- ✓ Multidisciplinary teams of high-performing scientists and experienced logistics team
- ✓ Strong emphasis on translational science
