UNIVERSITÀ DEGLI STUDI DI
MODENA E REGGIO EMILIA

MSCA Post-doctoral fellowships 2022

The **Molecular Modelling & Drug Design lab** (www.mmddlab.unimore.it) at the University of Modena and Reggio Emilia (Italy) is seeking for young and talented scientists willing to apply to the Marie Skłodowska-Curie Postdoctoral Fellowships 2022 program in the field of computer-aided drug design.

Expertise in one or more of the following research fields is required:

- chemoinformatics
- machine learning
- structure-based drug design
- ligand-based drug design

The applicant will be involved in a multi-disciplinary drug discovery team working in the field of cancer and neurodegeneration.

Motivated applicants are invited to contact **Prof. Giulio Rastelli** (giulio.rastelli@unimore.it) providing the following information:

- updated CV
- short statement of previous research experience and current interests
